

Lakeland Announces New Hand Surgeon

Michael E. Berry, M.D., is now accepting patients at the Lake Michigan Hand Center located in the Health Park Medical Suites adjacent to the Center for Outpatient Services in St. Joseph. The Center offers patients with hand constraints opportunities for advanced care and education as well as treatment for common conditions, such as arthritis of the hand and wrist. Additionally, Dr. Berry is a member of the American College of Surgeons.

Dr. Berry earned his medical degree from Loma Linda University in Loma Linda, California in 2000. He completed a general surgery residency at St. Joseph Mercy Oakland Hospital in Pontiac, Michigan in 2005, where he also served as chief resident. He completed a fellowship in hand surgery at the University of Arkansas for the Medical Sciences in Little Rock, Arkansas in 2006.

In addition to arthritis, Dr. Berry also specializes in trigger finger, carpal tunnel, cubital tunnel syndrome, fractures/dislocations of the hand and wrist, tendon/ligament/nerve/vessel injuries to the hand, wrist, and forearm, carpal instability, syndactyly, polydactyly, and other hand and wrist problems.

"I've received a warm reception from my new colleagues," stated Dr. Berry. "I am looking forward to working with referring physicians in the area to help them manage their patients with hand conditions."

Dr. Berry is a native of the St. Joseph area. He attended local schools and received his Bachelor of Science degree from Andrews University in Berrien Springs, Michigan. "It's good to be back home," commented Dr. Berry.
