Emergency Medicine

Program Director: Michelino Mancini, DO, FACOEP
Positions Available Per Year: seven

The Emergency Departments at Lakeland HealthCare treat more than 80,000 patients per year. Our department offers all services related to emergency treatment. An affiliation with Grand Rapids Medical Education Partners, to provide training in PICU and trauma, will give the resident a complete educational experience.

Family Medicine

Program Director: Douglas Tacket, DO
Positions Available Per Year: four

Lakeland HealthCare provides primary medical care for a service area population of over 240,000 individuals. Our extensive network of specialists both within our health system and outside, offers a quality referral base for our primary care providers.

www.lakelandhealth.org
Internal Medicine

Program Director: Mark Smalley, DO
Positions Available Per Year: six
Lakeland offers a traditional Internal Medicine track which emphasizes inpatient care and may be used to prepare for practice as an internist/hospitalist or for subspecialty residency or fellowship training. Our health system offers 24/7 hospitalist services, as well as internal medicine primary care sites. The internal medicine resident can expect a well-rounded experience seeing a variety of patients and pathology.

Dermatology

Program Director: Mark Kuriata, DO, FAOCD
Positions Available Per Year: one
The Lakeland Dermatology Residency incorporates the most advanced and up-to-date basic medical science in a clinical setting that allows for optimal educational development over the course of training in the field of dermatology. The program will thoroughly prepare trainees for the board-certification examination as administered by the American Osteopathic Board of Dermatology (AOBD). Fourth year student rotations are accepted between January and May of each year.

Geriatric Fellowship

Program Director: Keith VanOosterhout, MD
Assistant Program Director: Douglas Tacket, DO
The Lakeland Geriatric Fellowship is structured to provide an educational program in geriatric medicine, with a sufficient level of training and experience, to produce Osteopathic family medicine physicians with the competence and added qualifications in the field of geriatric medicine, leading to board certification. Student rotations are available year-round.

Lakeland HealthCare
Medical Excellence. Compassionate Care.
Lakeland Regional Medical Center, St. Joseph is a 250-bed hospital located in southwest Michigan on the shores of Lake Michigan and the lead hospital of Lakeland HealthCare, the primary healthcare system serving patients from five surrounding counties.

Lakeland Regional Medical Center has received multiple awards and national recognition in the areas of cardiovascular intervention, pulmonary medicine, clinical outcomes, and patient safety. These awards testify to the exceptional skills and expertise of our medical staff.

Our physicians are eager to share these skills with students and residents. The patient care experience is enhanced by our new, technologically advanced inpatient addition. The addition was constructed using evidence-based design which will provide an optimal environment for work, patient care and safety.

www.lakelandhealth.org
On-site lectures and educational facilities will combine with connectivity to Michigan State University’s vast medical education resources to create an excellent setting for learning.

Students are welcome to rotate through any of our available clerkships. Meals and housing are provided based on availability.

Contact Michele Borre at (269) 982-4929 or email mborre@lakelandregional.org for more information.
